

## Knowing the symptoms of bowel cancer could save your life

- Bleeding from your bottom and/or blood in your poo
- A persistent and unexplained change in bowel habit
- Unexplained weight loss
- Extreme tiredness for no obvious reason
- A pain or lump in your tummy

If you have **any** of these symptoms or if things just don't feel right, go and see your doctor. You may need to visit your doctor more than once if your symptoms don't get better.
