

**GENERAL COMMENTS:**

Service was very good

Just keep the service running as impossible to see your own GP

Too long waiting time first thing in the morning, some times waiting an hour. This is due to demand perhaps you could have more people/telephones to stop delays?

I think the the service is wonderful

Triple service great

Have used this service before and very satisfied

Nurse practitioner was very helpful and conducted a thorough question/answer/exam and decided to ask a Doctor for opinion/prescription, which was given. Very helpful, very satisfied

Very pleasant

Seen by Nurse first - happy with prompt attention kind

Very good

It's been all perfect. Thank you

It is a really good new service

I was seen very quickly and the doctor was very helpful - keep the service going!

Your service is great

I was very gappy with the service. The Receptionist made an appointment on the same morning to see the Nurse and also got the Doctor to ring back straight away

Generally very good, I have used the clinic a few times and it is handy when a Drs appointment is not available

Excellent treatment, was very glad to be able to make an appointment this monring and could pop in from work

Everything perfect - great Nurse!

Very friendly staff - enjoyable and warm service - thank you

First time I have used it - but it seems a very good idea (a visit to A&E would be less than convenient)

Very difficult to get through on the telephone at 8.30 to make an appointment. Could it be possible to make an appointment at anytime of day the previous day?

Nice and quick and easy. Very convenient.

Service was very good. The Nurse was first class in dealing with my grandchild.
